SUMMARY

Results-driven Software Engineer with 4 years of experience in TypeScript, Node.JS, JavaScript, AWS, Databases, and Docker. Proficient in developing scalable and efficient software solutions, with a strong focus on clean code and best practices. Seeking a Software Engineer role to leverage technical expertise and contribute to the development of cutting-edge software applications.

EXPERIENCE

Tech Lead ShiftInc

February 2024 - Present, São Paulo, BRAZIL

- Coordinated and led development teams, providing technical and strategic guidance to ensure the successful delivery of projects.
- Solid experience in implementing and executing agile methodologies, with a special focus on Scrum. Effectively managed sprints, daily stand-ups, and retrospectives to foster a culture of continuous improvement.
- Developed and implemented robust and scalable software architectures, ensuring alignment with business objectives and ease of maintenance.
- Oversaw the entire project lifecycle from conception to delivery, ensuring adherence to timelines, budgets, and quality standards.
- Mentored and trained team members to promote professional development and ensure a collaborative and productive work environment.
- Continuously researched new technologies and best practices, applying relevant innovations to projects to enhance development efficiency and quality.

Software Engineer - Backend Node.JS (TypeScript)

ShiftInc

October 2021 - January 2024, São Paulo, BRAZIL

- Spearheaded the creation of bespoke applications, tailored to meet specific demands, showcasing a commitment to delivering solutions that excel in both scale and efficiency.
 - Played a pivotal role in identifying and addressing efficiency challenges within applications, demonstrating a proactive approach to problem-solving and a dedication to optimizing system performance.
 - Applied extensive knowledge in TypeScript, as well as proficiency in both relational and non-relational databases, to craft sophisticated and efficient solutions aligned with project requirements.
 - Orchestrated the scaling and optimization of applications, successfully accommodating a 30% surge in user traffic. This initiative resulted in a marked enhancement of overall performance and reliability, showcasing adeptness in adapting systems to evolving demands.
-

PROJECTS

Backend developer

Wizer Club · January 2022 - January 2023

- Development of applications for selling event tickets
 - Integrated caching mechanisms and database optimizations to enhance overall system performance.
 - Designed and developed scalable RESTful APIs using NodeJS, NestJS, and TypeScript, resulting in a 30% increase in API response time efficiency.
-

EDUCATION

Bachelor of Software Engineer

FIAP · São Paulo, BRAZIL · 2026

CERTIFICATIONS

API Security on Google Cloud's Apigee API Platform (C2)

Google · 2022

Google Cloud Fundamentals: Core Infrastructure

Google · 2022

Checkout Pro

MercadoLivre · 2022

React Native

RocketSeat · 2021

- React Native Fundamentals, Expo Fundamentals, Styled Components, React Hook Forms, React Navigation, Async Storage, Context API, OAuth, Communication with API, Animations, Offline First, Testing and performance, CI/CD and Deploy
-

SKILLS

Language Proficiency: english, portuguese.

Technical Skills: Node.js development, typeScript proficiency, relational databases, non-relational databases.

Additional Skills: agile methodologies, problem-solving, continuous learning, team collaboration.
